

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Arnold Turk (Reg # 33,094) on 02/19/2010.

The application has been amended as follows:

In claim 20, replace "butadiene Rubber" with –butadiene rubber--.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the closest prior art of record, Nishi et al. (JP 2002-338931 A, see machine translation for citation) or Hamaoka (JP 62036431 A, see translation for citation) does not teach or suggest converting in a melt polytetrafluoroethylene powder and at least one olefinically unsaturated polymer. Applicants have provided evidence of the abbreviations of the polymers of claim 20, therefore the previous 112, first paragraph, rejection is withdrawn (See Applicants' response filed 02/16/2010 on page 8). The previous claim objections of claims 1-20 is withdrawn in light of Applicants' amendment. The previous double patenting rejections are withdrawn in light of the cancellation of claims 1-9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Information Disclosure Statement

The following documents, DE 146716 and the non-patent document of Lee, D.-W., cited in the information disclosure state filed on 02/16/2010 have been already submitted and considered as part of the information disclosure statement filed on 01/25/2007.

The following documents, DE 146716 and the non-patent document of Lee, D.-W., cited in the information disclosure state filed on 07/17/2009 have been already submitted and considered as part of the information disclosure statement filed on 01/25/2007. Furthermore, the non-patent document by Shierholz was listed on the PTO-892 mailed on 11/16/2009.

Correspondence

Any inquiry concerning this communication or earlier communications from the examiner should be directed to NICOLE M. BUIE-HATCHER whose telephone number is (571)270-3879. The examiner can normally be reached on Monday-Thursday with alternate Fridays off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Eashoo can be reached on (571)272-1197. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
